What is the STATION BOOK?

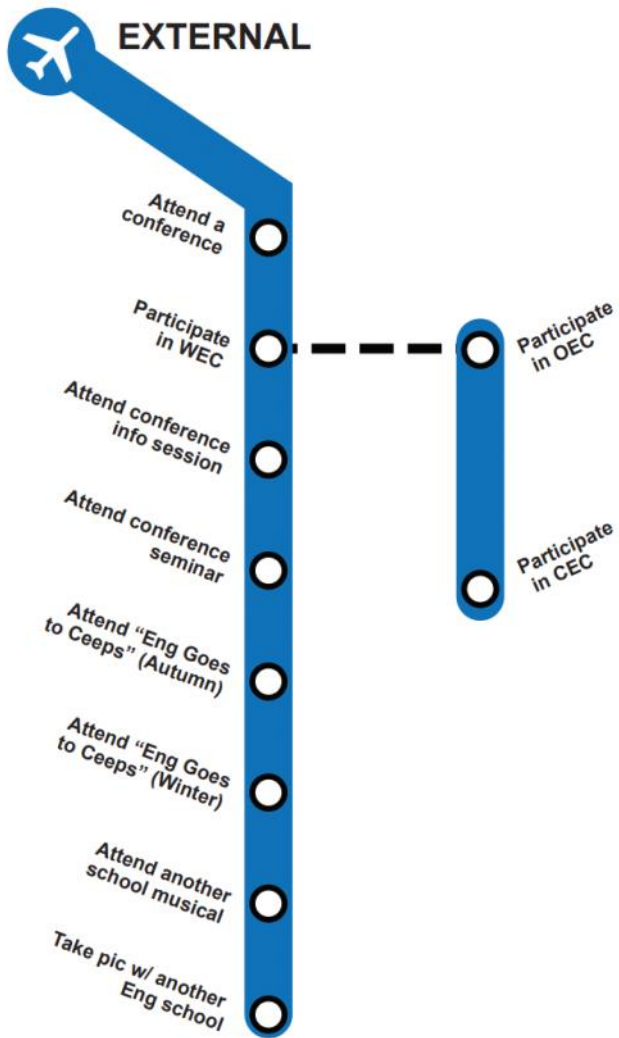

The UES Station Book and the Boilersuits are a unique initiative that will help bring the Western Engineering community together. It helps the UES recognize the hard work of every student who takes time out of their schedules to participate in the engineering community.

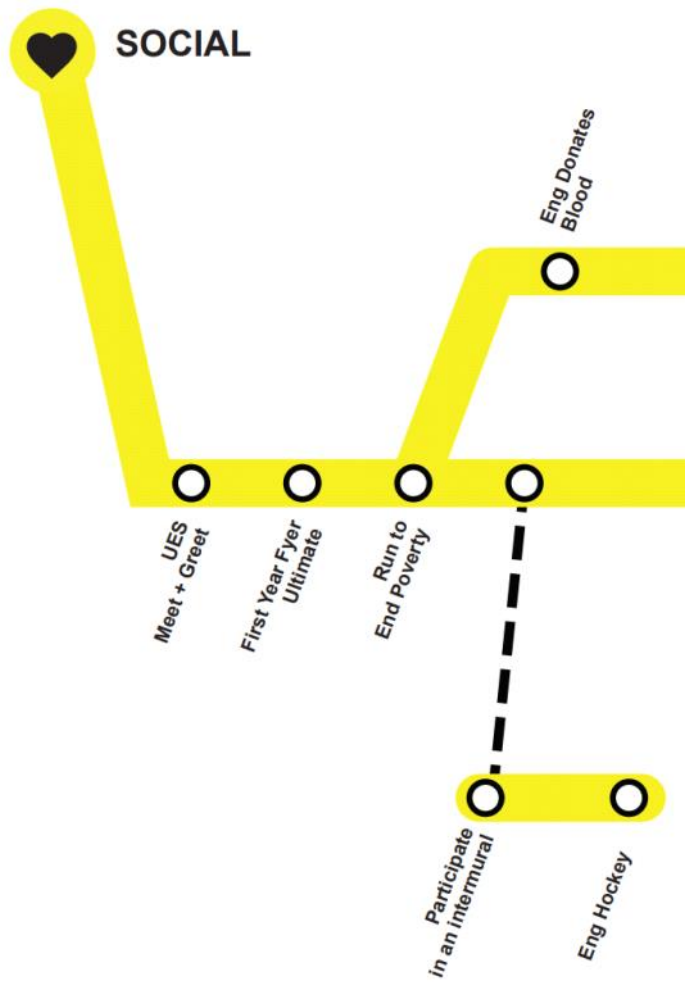

Tracking your travels in the Station Book provides you and the Boilersuit Committee a quick summary of everything you have been involved in over the year's journey.

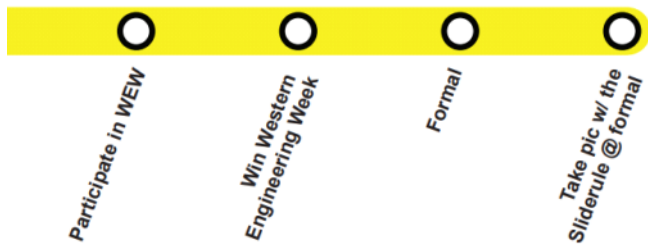

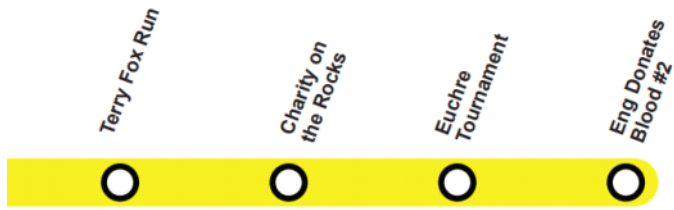

*Cheers,
The Boilersuit Committee*
